Declaration Regarding the Composition of Kornit Digital inks and auxiliaries

Kornit Digital Ltd. is committed to the customer safety and environment protection. Our inks and auxiliaries are PFAS-free, don't contain PFAS compounds or residues in the formulations.

Our consumables comply with various international leading standards in the textile industry, which have banned the use and presence of PFAS substances for many years. Products and raw materials undergo periodic chemical testing by internationally recognized independent laboratories, including PFAS residues.

Sincerely,
